

EXPANDED GOVERNMENT CONTRACTS PRACTICE

PRACTICE OVERVIEW

Morrison Foerster's preeminent Government Contracts & Public Procurement practice is comprised of 21 attorneys who focus exclusively on government contracting. Collaborating with a host of attorneys in a variety of practice groups around the world, our group has the depth and breadth of experience to tackle *any* issue that arises from doing business with the government, as well as the real-world challenges clients face when those contracts break down or the government initiates an investigation.

Our attorneys have nationally-recognized expertise in a variety of subject matter areas, including: government IP and data rights; complex technology solutions; public sector health care and life sciences issues; aerospace and defense, homeland security, and intelligence community matters; small business and socio-economic issues; and grants, cooperative agreements, and research and development opportunities. Eleven of our government contract attorneys hold active security clearances, enabling us to better assist any client with their most sensitive public sector engagements.

MoFo is committed to helping its clients stay ahead of industry trends. Our *Government Contracts Insights* blog provides in-depth analysis and thought leadership regarding the news, developments, and industry trends impacting our clients on a daily basis.
